

Know Your **Medicine**

Know Your **Pharmacist**

As your Medication Expert, your Pharmacist can:

- Explain how and what time of day to take your medicines
- Check for potential drug interactions and interactions with foods, over-the-counter products, and herbal supplements
- Teach you to use medications and devices safely and appropriately (including insulin and inhalers)
- Answer questions about how your medicines work and what they are treating
- Help explain treatment goals for your medicines
- Provide you with a comprehensive medication list to share with your providers
- Collaborate with your provider to create a personalized medication plan

October is
**American
Pharmacists
Month**

When was your last medication checkup?

Patients eligible for care at Fort Belvoir Community Hospital may request an appointment with a Clinical Pharmacist. Appointments include:

- A comprehensive medication review
- Review of labs
- Personalized recommendations

Call 571.231.0055 for more information and scheduling.
